INTRODUCTION

Once you say you are going to settle for second, that is what happens to you in life. —JOHN F. KENNEDY

IT ALL BEGINS FROM WITHIN

You are about to dive into a truly life transforming course that will transform your life and your business taking you and your business from where it is now to realms of abundance and fortunes. You will have so much success that cannot be explained but cannot be denied. I am going to lead you into an ultimate transformation and empowerment in your spirit, in your mind, and your finances.

Stay with me and I will show you step by step how to create your prosperous self and make financial abundance your reality.

I include an estimated time to complete each chapter for structure and accountability. But these are not law. Like anything in life, you will get out what you put in. What you sow is what will be reaped which means the more focused time and energy you put into this course the faster the results will appear. However, do not feel rushed, these time frames are established to give you focus and make the program most realistic and beneficial to you. My successful students have used this success map and I kindly suggest you do the same.

Print this success map and stick it where you can constantly see it as a reminder, also tell your friends and family about it. The more you tell, the more you are likely to do it.

***Watch and read, following along with the videos from start to finish and take notes so that you can start to formulate a plan for a prosperous you and for your business fortunes. Doing so will help you understand and not memorize. In my experience it is best to go through minimum twice. First focusing on the specifics of the content and second focusing on the implementation of the strategies, one step at a time.

INTRODUCTION

The difference with my multi-millionaire students and others is
1-Never Giving up

When you consistently believe you are winner then all your entire
being will start inclining in the direction of a winner-Me.

Challenges are what makes life interesting. Overcoming them is what
makes life meaningful- Joshua Marine

If you really look closely most overnight successes took a long time-
Steve Jobs

2-Making incremental progress

Through this course your will not only become your greatest self, but
you will get the mindset, tools, and tactics to build your empire,
helping many people and leaving a great legacy.

I can assure you that if you do the work, do not give up, remove
distractions, you will have all the tools you need to become a whole
wealthy magnet.

Please join our Facebook family because this gives us a common
platform to enhance each other and add value to each other's
business.

This course is a 7- day pragmatic execution blueprint and its
structure has been designed specifically for one purpose to bring you
results. This is no get rich quick scheme because the reality of getting
rich takes work, it is 100% what separates those who are wealthy and
those who are not. A get 'rich quick' mentality should be a mentality
that you need to get rid of because nothing of true worth is built with
that kind of mindset. There are no magic pills to true success.

I know that you choosing to be in this program, it is because you want
change, enormous improvements, and earth-shaking results. To build
an empire and leave an unforgettable legacy you need Spiritual
empowerment, Mind Power, Proven Strategies, and Necessary tools.

You need this whole Package not some, not one, you need ALL.

INTRODUCTION

The secret to Wealth is first being Whole, Whole in your Spirit, Whole in your Mind, Whole in your body, Whole in your relationships, Whole in your finances, and Whole in any other area of your life. A Whole person will always produce a Whole approach to everything from personal decisions to family decisions to business decisions. When you study the greatest people on earth, the most attractive aspect about them is not their gift it is their attitude and personality. They are whole people whose whole approach to life is the automation that generates great wealth and great impact in their life.

When you start building something of great value, your foundation is the most important part of your building. When your foundation is whole then your building will always stand even when the winds of tests come against your building. When your foundation is not whole it means it is cracked therefore when then winds of test blow no matter how tall and big your building is it will surely come down. What I am saying is the most important aspect of your Greatness and Wealth journey is your foundation therefore focus on establishing a WHOLE foundation!

DON'T BUILD A STUNNING MANSION ON A CRACKED FOUNDATION! Luke 6:47-49 Says:

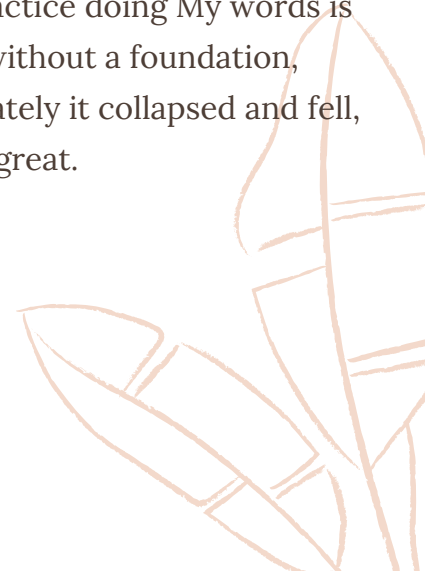

47 For everyone who comes to Me and listens to My words [in order to heed their teaching] and does them, I will show you what he is like:

48 He is like a man building a house, who dug and went down deep and laid a foundation upon the rock; and when a flood arose, the torrent broke against that house and could not shake or move it, because it had been securely built or [ag]founded on a rock.

49 But he who merely hears and does not practice doing My words is like a man who built a house on the ground without a foundation, against which the torrent burst, and immediately it collapsed and fell, and the breaking and ruin of that house was great.

INTRODUCTION

When you focus on becoming a Whole person in your Spirit, in your mind, in your body more than in making money you will automatically become a wealth magnet, and your Wealth will be Formidable and Unending. When you focus in becoming Whole and staying Whole then you will enjoy a life journey of consistent progress and the success that comes as a result. Greatness is a lifetime of consistent meaningful improvements and mastery. Improvements in yourself (in your Faith, in Your Talk, in Your Attitude).

MASTERY

Reality is merely an illusion, albeit a very persistent one.

—ALBERT EINSTEIN

Mastery of your Identity, mastery of your thoughts and mastery your Gift. Do your Best to Become a MASTER NOT A DUPLICATE! Masters understand and always ask WHY? Whereas duplicates only memorize and don't ever ask WHY? Let me illustrate it this way, a duplicate will likely only end up with one house in his name but a master on the other hand will end up with houses, lands, and nations in his name.

Empire builders and Legacy creators focus mainly on Improvement and Mastery and these take Diligence. Diligence includes consistent actions, intentional directional focus, Faithfulness, and Loyalty.

Empire builders and Legacy creators turn their beliefs or dreams or ideas into their physical reality by consistent corresponding actions. Consistent actions are what transfers the Wealth status of a Believer into their physical state where it is tangible and impactful.

Corresponding actions amongst others relative to your calling and gift are:

Spiritual Work: Prayer, Bible Study, Kingdom Giving, Kingdom Service

Physical Work: Word Principles implementation such as (Word affirmations, giving love, giving time, giving money), constantly studying and implementing proven strategies relative to your calling and gifts, buying, and using the tools and minds relative to your calling and gift. Always giving away valuable information that solves people's day to day challenges. Staying physically active through exercise.

INTRODUCTION

The more improvements you make in yourself (Spiritually, Mentally, Intellectually), the more attractive you become because those improvements will lead to a more genuine, more passionate, more caring, more relatable, more energetic, more beautiful, more inspiring, more relentless individual, a more attractive you, and a more magnetic you. When you are magnetic or have a magnetic personality, you will magnet wealth and magnet the best relationships. When you have a magnetic personality and magnetic presence people will readily buy any idea or buy any product or buy any service you offer them. Those who continually make progress Spiritually and Mentally are those who achieve Anything of True Worth!

Do not be Afraid of Resistance

When you decide to make daily improvements in yourself and have mastery of your gift you will face challenges, you will face resistance, and this is the point where the wheat is sifted from the chaff. Most people know how to talk the talk but when faced with a little resistance quit too soon. The ones who face resistance instead of running away are the people who truly become Great. Greatness is not built in a day therefore learn to accept resistance and learn to approach resistance with a victorious mindset.

Resistance has been proven scientifically to be beneficial to the human brain when seen as an opportunity and not a death sentence. It helps form new neurological pathways in your brain that boost your energy, increases your focus, and creates better lasting solutions. Another great way to tackle resistance is to stay inspired. Get inspiration from listening to those who are where you want to be. Get inspiration from lifting music and inspirational movies. There are many who have successfully walked the paths you are on therefore use their lives, their stories, their strategies as a lesson and as inspiration to never give up!

Extraordinary people are never seeking instant gratification in fact they have normalized for themselves prolonged gratification. At the start they are comfortable with not being rewarded for their love, their gift, and their work but it will not be long that the compounding effect of their consistent actions will pay off BIG! This means when rewards of wealth begin to flow to them it flows to them like a waterfall (powerful, constant, abundant rewards).

INTRODUCTION

This program is for longsighted legacy creators who are willing, determined, and open to doing everything they need to do or to create something, meaningful, valuable, and impactful not just for themselves but for the others around them.

Those who do not lay a formidable foundation of spiritual and mental wholeness and who do not willfully and intentionally make progress spiritually and mentally will soon find themselves in the middle of their success journey losing focus, drifting back to the old and unproductive habits and patterns their brains are most comfortable with. This can lead to frustrations and blames.

For example, you can be told the necessary habits to live a healthy life but if you do not believe you can live a healthy life, that counsel will be short lived, it will not be long, and you will drift back to unhealthy habits. Your belief that you can live healthy will trigger and establish patterns and habits that consistently incline towards living healthy and this is what will produce a lifelong transformation in your health. Another example is you can know the principles of success and even apply them but if your belief is 'success is not for someone like me' then you might never experience tangible success. It will only be in your head, but you will not have outward proofs until your paradigm shifts to you truly believing and accepting that 'success is for someone like you.'

Your Belief has the power to:

- 1) Trigger in you the patterns and inclinations that will consistently move you in the direction of your belief.
- 2) Trigger in you the patterns and inclinations that will consistently attract what you are believing.
- 3) Produce your desired outcome.

When you truly belief in something the corresponding actions will be easy breezy that is because the power driving you is from your belief which makes effort anesthetic. I want you to believe right now that you can learn anything and become everything you set your mind to, and this belief will produce the intentional effort and focus you need to make your belief your physical reality. When you live like this there is nothing you cannot do or accomplish in this world.

INTRODUCTION

When you truly believe your actions will align accordingly and produce wonderful results, those results will be the fuel that increases your faith, and that faith will increase your corresponding actions and increase your outcome and the unstoppable cycle continues.

Difference between a 50year old billionaire and a 50year old homeless person:

Is their spiritual capacity, their mentality, their habits and their life responses. To every action there is a reaction, simply put you will get out what you put in. Have you notice every time you smile at someone, they smile back at you? This same law applies to your activities, the activities you spend the most time on will reflect the most in your approach to other aspects of your life. I notice in my own life that the more I listened to a Faith Teacher the more I would talk Faith and approach life with more Faith and Confidence. Great men and women have great Faith and great Faith produces great Focus and great Focus clearly defines your path, produces diligence and diligence produces Greatness.

My Story:

Hello, I am Zyana with a mandate to Bless You. I am anointed, gifted, and well developed to abundantly and extraordinarily cause others to prosper, as individuals, in their gift, their calling or in their purpose, and in their business. My main qualification is my heartfelt desire to see so many great leaders rise, discover who they are, become the greatest version of themselves and extraordinarily express their gifts on earth.

You know...I was very young when I was hired by a company that was just starting, to manage their office and assist the owner. When I got there the only thing, I said to myself was "I must leave this company greater than I met it". I had no idea what I had gotten myself into because as I began working for that company, I realized my daily job functions exceeded my job descriptions. I started functioning in areas where I had no training or experience and the amazing thing was, I was producing amazing noticeable results that got the attention of my boss. I brought in new clients through phone conversations and interactions and when they came, they always told my boss I came here because of her, she brought me here.

INTRODUCTION

Remember I was not trained in this. As the clients came the business started growing exponentially and then I was able through my ability of gifted communication bring in big partners who prospered that company exceedingly and at that moment I realized, “I have a Gift” I can turn a zero Client Company into a Fortune Company.

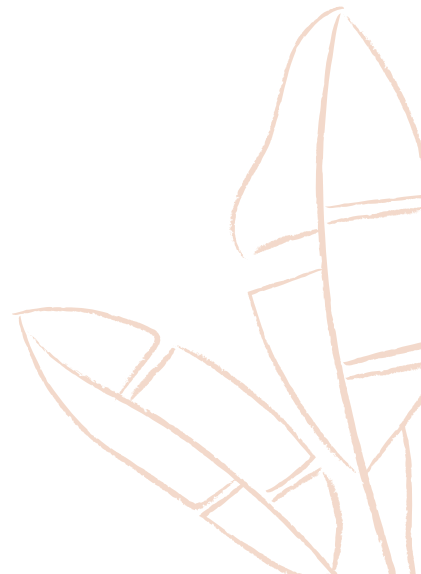

When I started doing work beyond my job description for that company with the same pay, I should have easily quit or resigned saying “this is not what you hired me for?” But I saw that as an opportunity to be a major asset to that company’s growth and I knew I had the potential to add great value to that company. As I did that I grew in knowledge, capacity, and wisdom. Most importantly I discovered and developed my gift in the process. I have spent the most part of my years developing myself, mastering this gift and growing in the wisdom and in the capacity needed to serve this gift to others in the greatest possible way. Through the years I have prospered, and I have helped many people and businesses prosper.

These courses are 10years and counting worth of research, information, great relationships, and great results given to you in record time, in a simple and in an excellent way.
